

# The Future of Work Experience

Employee Experience has become more important than ever before as have more options and choice about how they consume work.

Most companies struggle with a different App for everything. BlueRunner over the past 15 years has been perfecting the ultimate work experience App with everything in one place, easily connecting to legacy API's and increasing utilization due to ease of use.

Whatever your strategy upon re-entry, understanding the needs, and accommodating an easier and more convenient relationship between the physical and the remote space will help your business thrive, and your employee attraction, retention, and engagement.

It's long been a conundrum, but BlueRunner have cracked the code and developed a single platform that provides all the elements to create a great work experience, one convenient, easy to use App.

**Changing the Work Experience for GOOD!**

## The BlueRunner App provides an end-to-end experience for employees, including:

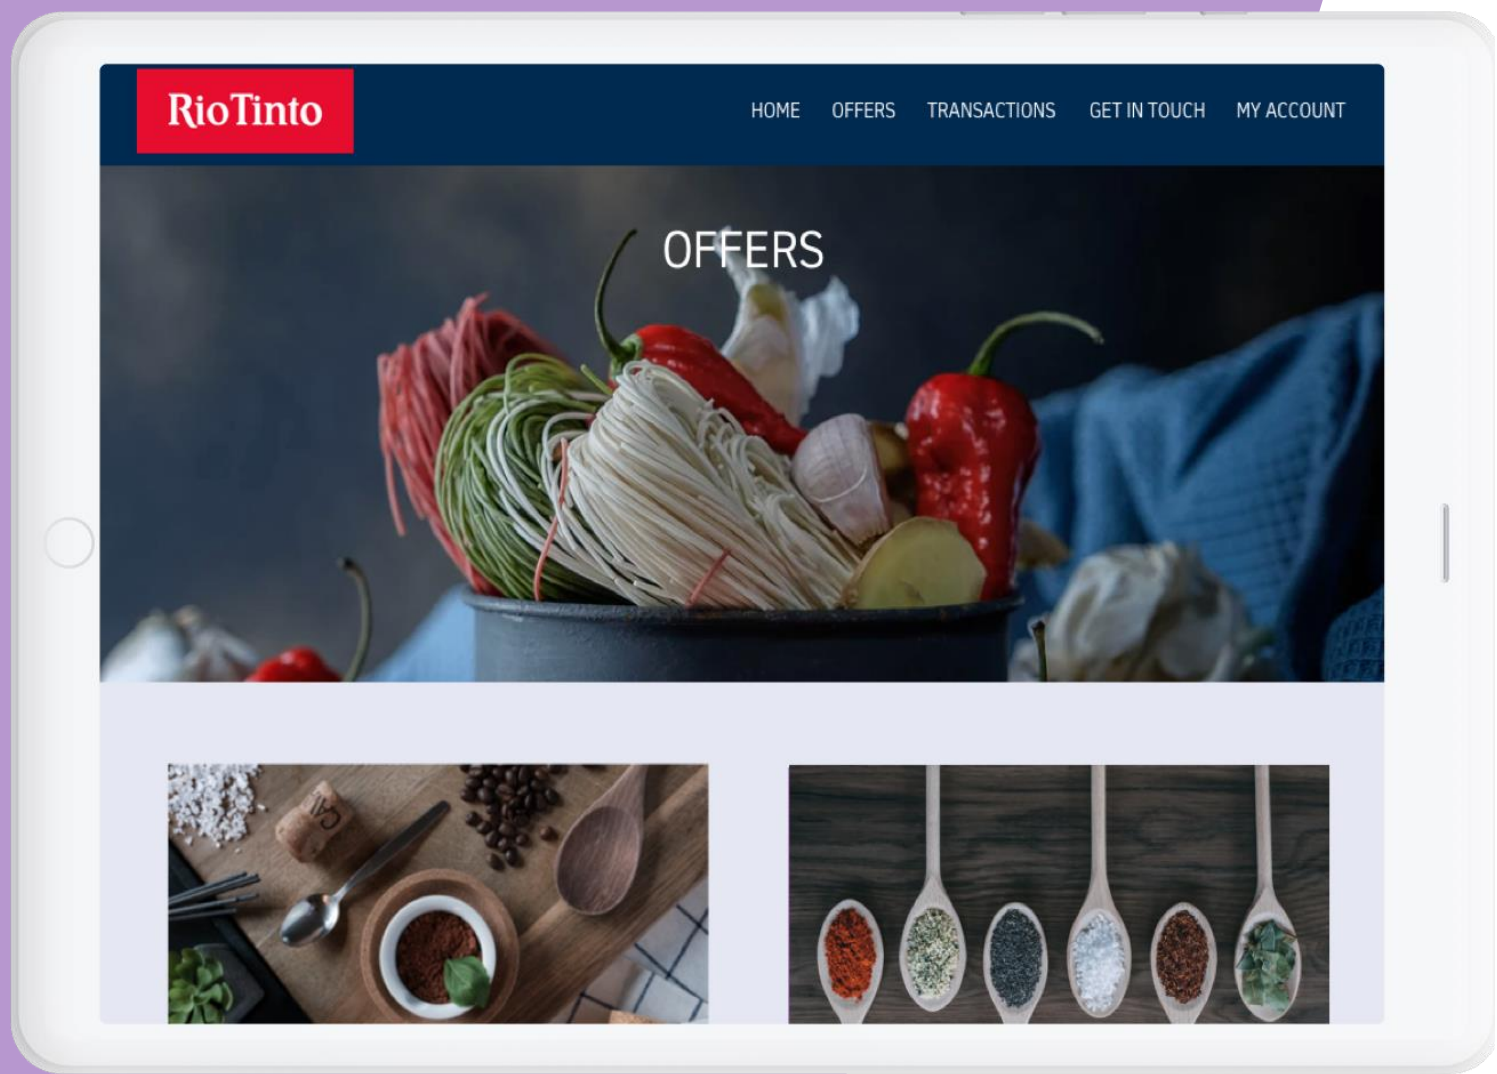

Food & Beverage | Pre-Order & Pick Up | Hospitality | Fitness Center | Health & Wellbeing | Transportation | Maps | Wayfinding | Building Access | Campus Events | Community News | Rewards & Loyalty and much more...

What's going on, events, special deals, community, a platform to create creative collisions.

Simple App download, curate your user content, personalize your message, engage.

Build upon existing functionality, connections to legacy and 3rd Party Apps and expand your employee experience into the future, for GOOD!
