

## Digital Procurement Network

Realize instant savings on items you purchase every day – plus tap into our network of hundreds of indirect spend savings options.

### Fit for Any Segment.

Our solutions are tailored for operators of all types: independent and multi-unit restaurants, casinos, hotels, healthcare, schools and more.

### Name the Item. We Cover it.

Take advantage of our cost savings solutions to instantly reduce your costs and increase your profit margins on every imaginable item – from garlic to garbage bags.

### Contracts With Top Food and Disposables Brands

Buyers Edge holds contracts with over 350 manufacturers that you know and love. There's no need to switch products – unless, of course, you want to save even more!

### Indirect Spend & Non-Food Savings

Tap into a world of savings on our “Beyond Broadline” programs. Save big on uniforms, DirecTV packages, credit card processing, equipment services, and more.

### No Need To Change Your Processes

Simply provide Buyers Edge with your proof of purchase and we'll do the rest. You'll gain instant access to our rebate and discount contracts.

### Data-Powered Recommendations

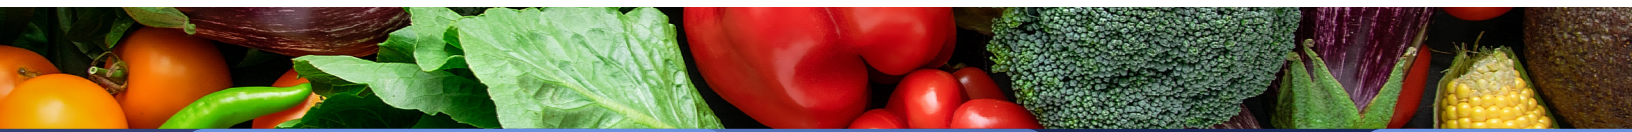

Want even more savings? Our artificial intelligence systems analyze your purchases and make recommendations that help boost your savings.

*“Buyers Edge has been the most important relationship we have as a business”*

## Fresh Solutions

Field to Table Produce Management. Reduce your costs, stabilize your prices, and build food safety and traceability into your produce supply chain.

### We are Produce procurement Specialists

Our teams provide in-person audits of the growing fields, distribution centers, and even our clients' walk-in coolers- all to ensure safe handling, storage, and usage of produce products

### We work with Your Distributor(s)

Change is disruptive. Our managed produce programs deliver savings and value without needing to switch distributors.

### Price Stability

Save 5%-10% on your produce purchases. As produce prices swing throughout the year, our prices maintain stability- allowing you to budget, order, and forecast more effectively.

### Tech-Enabled Food Safety & Transparency

Buyers Edge's produce technology lets you see real-time contracted prices, freight, and even management fees while giving you access to food safety audits, recalls and alerts.

## Software Solutions

We're using technology to transform the foodservice supply chain — delivering real-time data about your products, prices, and profitability.

### Price Verification

Audit 100% of contracted spend and keep overcharges under control. It's time to automate the time-consuming price verification process.

### Sourcing + Procurement

Give your procurement teams the right tools to drive continuous improvement and savings. Track invoices, review contracts, manage RFPs and let our AI tools help identify savings suggestions.

### Inventory + Compliance

Minimize supply chain disruptions with daily inventory updates and see what every one of your locations is buying before they impact your operation.

### Contract + Rebate Management

Management: Organize and access all of your manufacturer and distributor contracts and rebates in one place to easily maximize your savings.

### Commodity Market Reports + Alerts

Commodity reports and alerts enable you to develop data-driven strategies to maximize profitability regardless of market conditions.

### Back Office Solutions

A single source to manage food costs and automate back-office tasks. Recipe Costing, Inventory, AP Automation Accounting and Payroll are now available at your fingertips!

# Supply Chain Management

We handle every element of the supply chain. Tap into our expert procurement teams who are dedicated to lowering your food costs.

## Full-Service Supply Chain Management

Leverage our industry expertise and full-service solutions to identify savings opportunities in your operation.

## Manufacturer Pricing

Our contract experts negotiate directly with the manufacturer to secure, renew, and manage your manufacturer agreements- with a laser-focus on quality, consistency, and most importantly, the bottom line.

## Distributor Relationships

Negotiate and implement new Master Distribution Agreements with the distributor of your choice. We'll ensure that your operation receives the most favorable terms imaginable.

## Supply Chain Management

Customized strategies for supply chain challenges tailored to your unique concept and operational needs

## Spend Intelligence

We'll uncover savings potential that you never even thought of as we work alongside your team to secure contracts that maximize revenue and decrease operational costs.

## Auditing

We audit all pricing to confirm accuracy and chase after credits when discrepancies are found.
