## Executive Biography

### Tony Benedia

Senior Consultant, Strategy and Operations

Tony is a Contract Managed Services Executive with a proven track record over a 40+ year career. He has recruited, hired, developed, and promoted over 25 leaders to the position of District Manager and above over the course of his career. To this day, he continues to be a mentor to many of those executives. Tony has led field focus growth and cost reduction initiatives as well as expanding client relationships by being a trusted advisor. Tony is an innovative and analytical leader based on the recognition and numerous awards that he and his teams have received over the years. Known for his personal credibility, integrity, and effective communication, Tony has exceeded expectations in most roles of increased responsibility that he has had the opportunity to oversee.

With experience in over 15 various lines of business, Tony's diverse business background will be an asset to the 4xi Global Consulting family. Tony stated that the culture and values of 4xi align with his goals of having proven business leaders focused on a consistent mission and purpose.

When asked about his operating philosophy, Tony stated that when you share a vision with the right people, and establish realistic expectations along with guardrails for success, you will find that your team will not only meet but will often exceed those goals. Tony shared that he has been fortunate to have worked with strong mentors and great teams over the years.

Tony attended the University of Denver for Hotel and Restaurant Management as well as taken additional training courses at Villanova, Penn State, and Clemson Universities. He is a certified Executive Chef, graduating from the Culinary Arts Program in Chicago, Illinois. Tony and his family recently relocated back to Illinois after spending the last 25 years in Arizona.

#### Client Engagements:

Contract Managed Service Executive with a proven track record of developing strategic plans and being a trusted advisor for a diverse portfolio of clients while optimizing operational performance though highly motivated teams.
